Subject: RE: Inventory from Parkersburg Fire Site
Attachments: Ames Warehouse Inventory.docx

I hate tradename acronyms. I went through the 11 pages WV sent out (which breaks down the inventory by sections of the warehouse complex), identified the polymers as best I could, and approximately the total volume in the entire complex on one page. I may have double counted the volumes because there is a 3-page summary and then 8 section specific pages. It is not very clear if everything in the section pages are actually included in the summary.

Subject: Inventory from Parkersburg Fire Site

Bob, per your request during our conversation today, I am forwarding the material list that Jimmy Gianato (WV) provided for the Parkersburg warehouse fire site. Jimmy had indicated in his message that they may also have MSDSs/SDSs from the original manufacturer, but I do not believe we have received them yet. So far, this is all I have on the site, but hope it is helpful to you.
